Aims and Scope:

Solid State Phenomena specializes in the rapid publication of international conference proceedings and stand-alone volumes on topics of current interest in the field of solid state physics and its applications to materials science related topics. The periodical is covered by all major abstract media.

All contributions are peer reviewed and edited by the corresponding guest editor(s). All volumes are complete with author and keyword indexes.

ISSN 1012-0394 (Part B of Diffusion and Defect Data, ISSN 0377-6883): 12 volumes per year. The subscription rate for online and print is Euro 1042.00 per year (or Euro 72.00 per volume) plus Euro 96.00 postage/handling (Euro 8.00 per volume).

Internet:

The journal is available in full text via www.scientific.net

Preview Service:

Trans Tech Publications' Preview Service offers automatic delivery of tables of contents via e-mail - several weeks before the actual release of the respective publication. This service is free of charge. For more information, please visit our home page or send an e-mail to preview@scitec.net containing simply the word *help* as the message body.
